GEOPHYSICAL JOURNAL AUTHOR INDEX FOR YEAR 1982

ABDULLABEKOV K N, SHAPIRO V A Anomalous variation of the geomagnetic field in East Fergana - magnetic precursor of the Alay earthquake with M=7.0 (1978 November 2)..... 68 1
AMALVICT MARTINE, HINDERER JACQUES, LEGROS HILAIRE A search for Chandler and nearly diurnal free wobbles using Liouville equations... 71 303
AMIN M On analysis and prediction of tides on the west coast of Great Britain..... 68 57
AMIN M On analysis and forecasting of surges on the west coast of Great Britain..... 68 79
ANDERSON DON L, DZIEWONSKI ADAM M Upper mantle anisotropy: evidence from free oscillations..... 69 383
ANGELIER JACQUES, TARANTOLA ALBERT, VALETTE BERNARD, MANOUSSIS STRATIS Inversion of field data in fault tectonics to obtain the regional stress - I. Single phase fault populations: a new method of computing the stress tensor..... 69 607
ARORA B R, LILLEY F E M, SLOANE M N, SINGH B P, SRIVASTAVA B J, PRASAD S N Geomagnetic induction and conductive structures in north-west India..... 69 459
ASUDEH ISA Seismic structure of Iran from surface and body wave data.. 71 715
ATKINSON B K, DENNIS S M The influence of water on the stress supported by experimentally faulted Westerly granite..... 71 285
AU D, CLOWES R M Crustal structure from an OBS survey of the Nootka fault zone off western Canada..... 68 27
BAKSI AJOY K Ar40-Ar39 incremental heating studies on the Tudor Gabbro, Grenville Province, Ontario; its bearing on the North American apparent polar wander path in late Proterozoic times..... 70 545
BARCILON VICTOR An explicit method for solving the geomagnetic induction problem..... 70 205
BARD PIERRE-YVES Diffracted waves and displacement field over two-dimensional elevated topographies..... 71 731
BARKER JEFFREY S, LANGSTON CHARLES A Moment tensor inversion of complex earthquakes..... 68 777
BARLEY B J, HUDSON J A, DOUGLAS A S to P scattering at the 650 km discontinuity..... 69 159
BARTON C E, MCELHINNY M W Time series analysis of the 10 000 yr geomagnetic secular variation record from SE Australia..... 68 709
BASSETT WILLIAM A, LIU LIN-GUN, SHEN POUYAN High-pressure polymorphism of FeO? An alternative interpretation and its implications for the Earth's core..... 70 57
BEAMISH DAVID A geomagnetic precursor to the 1979 Carlisle earthquake. 68 531
BEAUMONT CHRISTOPHER, KEEN CHARLOTTE E, BOUTILIER ROSS On the evolution of rifted continental margins: comparison of models and observations for the Nova Scotian margin..... 70 667
BECKMANN GEORGE E J Palaeomagnetism of nine dated Phanerozoic dykes in south-east Greenland..... 69 355
BEN-MENAHEM ARI A new derivation for the ratio Q(wobble)/Q(mantle).... 70 535
BERBERIAN MANUEL Aftershock tectonics of the 1978 Tabas-e-Golshan (Iran) earthquake sequence: a documented active 'thin- and thick-skinned tectonic' case..... 68 499
BIRKENMAJER K, VINCENZ S A, COSSACK D, DUDA S J, JELENSKA M, KADZIALO-HOFMOKL M, KRUCZYK J Palaeomagnetism of some late Mesozoic dolerite dykes of South Spitsbergen - GJRAS 67, 599-614 - Erratum.... 69 849
BLAIR D P Dynamic modelling of in-hole mounts for seismic detectors... 69 803
BOCCHIO F Geodetic singularities in the gravity field of a non-homogeneous planet..... 68 643
BONAFEDE M, DRAGONI M Implications of stress concentration on a strike-slip fault in an elastic plate subject to basal shear stress.. 69 369
BONHOMMET N, PERROUD H, ROBARDET M Comment on 'A palaeomagnetic study of Cambrian red beds from Carteret, Normandy, France' by W. A. Morris 69 573
BORCHERDT ROGER D Reflection-refraction of general P- and type-I S-waves in elastic and anelastic solids..... 70 621
BOUTILIER ROSS, BEAUMONT CHRISTOPHER, KEEN CHARLOTTE E On the evolution of rifted continental margins: comparison of models and observations for the Nova Scotian margin..... 70 667

BRAILE L W, VON FRESE R R B, HINZE W J Regional North American gravity and magnetic anomaly correlations..... 69 745
BRIDEN J C, MEREU R F, WHITCOMBE D N A teleseismic study of the West African craton margin in Senegal: P-wave slowness and asimuth anomalies..... 71 739
BUTCHER E C An investigation of the causes of abnormal quiet days in Sq(H)..... 69 101
BUTCHER E C On the latitude of the Sq(H) focus at sunspot minimum..... 69 113
BUTCHER E C An investigation of the causes of abnormally quiet days in Sq(H) - GJRAS 67, 101-111 - Erratum..... 70 815
BUTLER RHETT The 1973 Hawaii earthquake: a double earthquake beneath the volcano Mauna Kea..... 69 173
CANAS JOSE A Rayleigh wave anelastic attenuation across the Bermuda Rise and the volcanic Caribbean Arch..... 71 703
CANN J R, STRENS M R A model of hydrothermal circulation in fault zones at mid-ocean ridge crests..... 71 225
CAPITAINE NICOLE, XIAO NAIYUAN Some terms of nutation derived from the BIH data..... 68 805
CASSELL B R A method for calculating synthetic seismograms in laterally varying media..... 69 339
CAZENAVE ANNY, LAGO BERNARD, DOMINH KIEN Geoid anomalies over the north-east Pacific fracture zones from satellite altimeter data..... 69 15
CERVENY V, POPOV M M, PSENCIK I Computation of wave fields in inhomogeneous media - Gaussian beam approach..... 70 109
CHAO B FENG Excitation of normal modes on non-rotating earth models... 68 295
CHAPMAN MICHAEL E, TALWANI MANIK Geoid anomalies over deep sea trenches..... 68 349
CHATTERJEE A K, KNOPOFF L Unilateral extension of a two-dimensional shear crack under the influence of cohesive forces..... 68 7
CHOY GEORGE L, HARVEY DANNY Broad-band deconvolution of GDSN data..... 69 659
CHRISTENSEN NIKOLAS I, SALISBURY MATTHEW H Lateral heterogeneity in the seismic structure of the oceanic crust inferred from velocity studies in the Bay of Islands ophiolite, Newfoundland..... 68 675
CHRISTENSEN ULRICH Phase boundaries in finite amplitude mantle convection..... 68 487
CHROSTON P N, EVANS C J, TOUSSAINT-JACKSON J E A comparison of laboratory measured electrical conductivity in rocks with theoretical conductivity based on derived pore aspect ratio spectra.. 71 247
CLOWES R M, AU D Crustal structure from an OBS survey of the Nootka fault zone off western Canada..... 68 27
COCHRAN JAMES R The magnetic quiet zone in the eastern Gulf of Aden: implications for the early development of the continental margin..... 68 171
COSSACK D, VINCENZ S A, DUDA S J, BIRKENMAJER K, JELENSKA M, KADZIALO-HOFMOKL M, KRUCZYK J Palaeomagnetism of some late Mesozoic dolerite dykes of South Spitsbergen - GJRAS 67, 599-614 - Erratum.... 69 849
CRAMPIN STUART, STEPHEN RALPH A, MCGONIGLE ROBERT The polarization of P-waves in anisotropic media..... 68 477
CRAMPIN STUART, DOYLE MARK, MCGONIGLE ROBERT The effects of crack anisotropy on the hypocentral locations of local earthquakes..... 69 137
CRICHLOW JOEL M The effect of underground structure on seismic motions of the ground surface..... 70 563
CURRIE ROBERT G Evidence for 18.6-yr M(N) term in Japanese air pressure and geophysical implications..... 69 321
DAGLEY P, WILSON R L, HALL J M The British Tertiary igneous province: palaeomagnetism of the dyke swarm along the Sleat coast of Skye..... 68 317
DAGLEY PETER, SHAW JOHN, MUSSETT ALAN The magnitude of the palaeomagnetic field in Iceland between 2 and 6 Myr ago..... 68 211
DAHLEN F A The effect of data windows on the estimation of free oscillation parameters..... 69 537
DALEY P F, HRON F Ray-reflectivity method for SH-waves in stacks of thin and thick layers..... 69 527
DANGELMAYR G, GUTTINGER W Topological approach to remote sensing..... 71 79
DAS U C, VERMA S K Electromagnetic response of an arbitrarily shaped three-dimensional conductor in a layered earth - numerical results... 69 55
DAVIES GEOFFREY F, STREBECK JOHN W Old continental geotherms: constraints on heat production and thickness of continental plates... 69 623
DAVIES GEOFFREY F, WILLEMANN RAYMOND J Bending stresses in subducted lithosphere..... 71 215

DAWSON T W, WEAVER J T, RAVAL U B-polarization induction in two generalized thin sheets at the surface of a conducting half-space.... 69 209
DE BEER J H, HUYSSEN R M J, JOUBERT S J, VAN ZIJL J S V Magnetometer array studies and deep Schlumberger soundings in the Damara orogenic belt, South West Africa..... 70 11
DENHAM CHUCK, SCHOUTEN HANS, SMITH WOOLLCOTT On the quality of marine magnetic anomaly sources and sea-floor topography..... 70 245
DENNIS S M, ATKINSON B K The influence of water on the stress supported by experimentally faulted Westerly granite..... 71 285
DER ZOLTAN A, MCELFRESH THOMAS W, O'DONNELL ANNE An investigation of the regional variations and frequency dependence of anelastic attenuation in the mantle under the United States in the 0.5-4 Hz band..... 69 67
DOMINH KIEN, CAZENAVE ANNY, LAGO BERNARD Geoid anomalies over the north-east Pacific fracture zones from satellite altimeter data..... 69 15
DONATO J A, TULLY M C A proposed granite batholith along the western flank of the North Sea Viking Graben..... 69 187
DOORNBOS D J Seismic moment tensors and kinematic source parameters... 69 235
DOUGLAS A, BARLEY B J, HUDSON J A S to P scattering at the 650 km discontinuity..... 69 159
DOYLE MARK, MCGONIGLE ROBERT, CRAMPIN STUART The effects of crack anisotropy on the hypocentral locations of local earthquakes..... 69 137
DRAGONI M, BONAFEDE M Implications of stress concentration on a strike-slip fault in an elastic plate subject to basal shear stress.. 69 369
DRUMMOND B J, MUIRHEAD K J, HALES A L Evidence for a seismic discontinuity near 200 km depth under a continental margin..... 70 67
DUDA S J, VINCENZ S A, COSSACK D, BIRKENMAJER K, JELENSKA M, KADZIALO-HOFMOKL M, KRUCZYK J Palaeomagnetism of some late Mesozoic dolerite dykes of South Spitsbergen - GJRAS 67, 599-614 - Erratum.... 69 849
DUNLOP DAVID J, PREVOT MICHEL Magnetic properties and opaque mineralogy of drilled submarine intrusive rocks..... 69 763
DUPIS A, THERA A L Natural electromagnetism in the Rhine Graben..... 68 545
DUPLESSIS A, MARTIN A K, GOODLAD S W, HARTNADY C J H Cretaceous palaeopositions of the Falkland Plateau relative to southern Africa using Mesozoic seafloor spreading anomalies..... 71 567
DZIEWONSKI ADAM M, ANDERSON DON L Upper mantle anisotropy: evidence from free oscillations..... 69 383
DZIEWONSKI ADAM M, STEIM JOSEPH M Dispersion and attenuation of mantle waves through waveform inversion..... 70 503
EDWARDS J Studies of partial rotational remanent magnetization and rotational remanent magnetization at slow speeds of rotation..... 68 609
EDWARDS J Gyroremanent magnetization produced by specimen rotation between successive alternating field treatments..... 71 199
ENGLAND PHILIP, MCKENZIE DAN A thin viscous sheet model for continental deformation..... 70 295
EVANS C J, CHROSTON P N, TOUSSAINT-JACKSON J E A comparison of laboratory measured electrical conductivity in rocks with theoretical conductivity based on derived pore aspect ratio spectra.. 71 247
EVANS M E, TURNER G M, HUSSIN I B A geomagnetic secular variation study (31 000-19 500 bp) in Western Canada..... 71 159
FAERSETH R B, MACINTYRE R M Comments on 'palaeomagnetism of coast-parallel alkaline dykes from western Norway; ages of magmatism and evidence for crustal uplift and collapse', by R. Lovlie..... 70 539
FISHER NICHOLAS I, LEWIS TOBY Graphical methods for investigating the fit of a Fisher distribution to spherical data..... 69 1
FORSYTH DONALD W, LOUDEN KEITH E Crustal structure and isostatic compensation near the Kane fracture zone from topography and gravity measurements: 1. Spectral analysis approach..... 68 725
FRAZER L NEIL Invariant expressions for elastic radiation from a fault with prescribed slip..... 70 529
FRAZER L NEIL, SINTON JOHN B A method for the computation of finite frequency body wave synthetic seismograms in laterally varying media. 71 30
GELCHINSKY B JA Scattering of waves by a quasi-thin body of arbitrary shape..... 71 425
GINZBURG A, WHITMARSH R B, SEARLE R C The structure and origin of the Azores-Biscay Rise, North-east Atlantic Ocean..... 70 79
GIRNIUS T P, WOODHOUSE J H Surface waves and free oscillations in a regionalized earth model..... 68 653

GOLUBEV N G, ZHDANOV M S, SPICHAK V V, VARENTSOV IV M The construction of effective methods for electromagnetic modelling..... 68 589
GOODLAD S W, MARTIN A K, HARTNADY C J H, DUPLESSIS A Cretaceous palaeopositions of the Falkland Plateau relative to southern Africa using Mesozoic seafloor spreading anomalies..... 71 567
GORDON RICHARD G The late Maastrichtian palaeomagnetic pole of the Pacific Plate..... 70 129
GREEN R W E, MCGARR A, SACKS I S, LINDE A T, SPOTTISWOODS S M Coseismic and other short-term strain changes recorded with Sacks-Evertson strainmeters in a deep mine, South Africa..... 70 717
GUBBINS D, THOMPSON C J, WHALER K A Stable regions in the Earth's liquid core..... 68 241
GUBBINS D, THOMPSON C J Three-dimensional lithospheric modelling at NORSAR: linearity of the method and amplitude variations from the anomalies..... 71 1
GUINOT B The Chandlerian nutation from 1900 to 1980..... 71 295
GUTTINGER W, DANGELMAYR G Topological approach to remote sensing..... 71 79
HAINES A J Calculating velocity fields across plate boundaries from observed shear rates..... 68 203
HALES A L, DRUMMOND B J, MUIRHEAD K J Evidence for a seismic discontinuity near 200 km depth under a continental margin..... 70 67
HALL J M, WILSON R L, DAGLEY P The British Tertiary igneous province: palaeomagnetism of the dyke swarm along the Sleat coast of Skye..... 68 317
HANSEN ROGER A Simultaneous estimation of terrestrial eigenvibrations. 70 155
HARTNADY C J H, MARTIN A K, GOODLAD S W, DUPLESSIS A Cretaceous palaeopositions of the Falkland Plateau relative to southern Africa using Mesozoic seafloor spreading anomalies..... 71 567
HARTSTRA R L High-temperature characteristics of a natural titanomagnetite..... 71 455
HARTSTRA R L Grain-size dependence of initial susceptibility and saturation magnetization-related parameters of four natural magnetites in the PSD-MD range..... 71 477
HARTSTRA R L A comparative study of the ARM and Isr of some natural magnetics of MD and PSD grain size..... 71 497
HARVEY DANNY, CHOY GEORGE L Broad-band deconvolution of GDSN data..... 69 659
HAYES M A note on H-waves..... 68 815
HELMBERGER DON V, RUFF LARRY J The structure of the lowermost mantle determined by short-period P-wave amplitudes..... 68 95
HINDERER JACQUES, LEGROS HILAIRE, AMALVICT MARTINE A search for Chandler and nearly diurnal free wobbles using Liouville equations... 71 303
HINZE W J, VON FRESE R R B, BRAILE L W Regional North American gravity and magnetic anomaly correlations..... 69 745
HIRN ALFRED, SENOS LUISA, SAPIN MARTINE, VICTOR LUIS MENDES High to low velocity succession in the upper crust related to tectonic emplacement: Tras os Montes-Galicia (Iberia), Brittany and Limousin (France)..... 70 1
HOBBS B A Automatic model for finding the one-dimensional magnetotelluric problem..... 68 253
HODDER BARBARA M Monopoly..... 70 217
HOOSHYAR M A, RAZAVY M A continued fraction approach to the inverse problem of electrical conductivity..... 71 127
HOOSHYAR M A, RAZAVY M The inverse problem of geomagnetic induction at a fixed frequency..... 71 139
HOPGOOD PETER, LAMBECK KURT The earths rotation and atmospheric circulation: 1958-1980..... 71 581
HOUSEMAN GREG, MCKENZIE DAN P Numerical experiments on the onset of convective instability in the Earth's mantle..... 68 133
HRON F, DALEY P F Ray-reflectivity method for SH-waves in stacks of thin and thick layers..... 69 527
HUDSON J A, BARLEY B J, DOUGLAS A S to P scattering at the 650 km discontinuity..... 69 159
HUDSON J A Use of stochastic models in seismology..... 69 649
HUESTIS STEPHEN P A geometrical interpretation of ideal body problems. 69 253
HUSSIN I B, TURNER G M, EVANS M E A geomagnetic secular variation study (31 000-19 500 bp) in Western Canada..... 71 159
HUTTON V R S, INGHAM M R Crustal and upper mantle electrical conductivity structure in Southern Scotland..... 69 579

HUTTON V R S, INGHAM M R The interpretation and tectonic implications of the geoelectric structure of Southern Scotland..... 69 595
HUYSSEN R M J, DE BEER J H, JOUBERT S J, VAN ZIJL J S V Magnetometer array studies and deep Schlumberger soundings in the Damara orogenic belt, South West Africa..... 70 11
INGHAM M R, HUTTON V R S Crustal and upper mantle electrical conductivity structure in Southern Scotland..... 69 579
INGHAM M R, HUTTON V R S The interpretation and tectonic implications of the geoelectric structure of Southern Scotland..... 69 595
JACKSON J A, SOUFLERIS C, KING G C P, SPENCER C P, SCHOLZ C H The 1978 earthquake sequence near Thessaloniki (northern Greece)..... 68 429
JARVIS GARY T, PELTIER W R Mantle convection as a boundary layer phenomenon..... 68 389
JEFFREYS HAROLD Tidal friction; and core; mountain and continent formation..... 71 555
JELENSKA M, VINCENZ S A, COSSACK D, DUDA S J, BIRKENMAJER K, KADZIALO-HOFMOKL M, KRUCZYK J Palaeomagnetism of some late Mesozoic dolerite dykes of South Spitsbergen - GJRAS 67, 599-614 - Erratum.... 69 849
JOBERT GEORGES Linear formulation of the inverse problem for the amplitude of seismic waves..... 69 841
JOHNSON LANE R, STUMP BRIAN W Higher-degree moment tensors - the importance of source finiteness and rupture propagation on seismograms..... 69 721
JONES ALAN G On the electrical crust-mantle structure in Fennoscandia: no Moho, and the asthenosphere revealed?..... 68 371
JONES GLYN M A technique for computing geoid height anomalies over two-dimensional earth models..... 69 329
JORDAN THOMAS H, SILVER PAUL G Optimal estimation of scalar seismic moment..... 70 755
JOUBERT S J, DE BEER J H, HUYSSEN R M J, VAN ZIJL J S V Magnetometer array studies and deep Schlumberger soundings in the Damara orogenic belt, South West Africa..... 70 11
KADZIALO-HOFMOKL M, VINCENZ S A, COSSACK D, DUDA S J, BIRKENMAJER K, JELENSKA M, KRUCZYK J Palaeomagnetism of some late Mesozoic dolerite dykes of South Spitsbergen - GJRAS 67, 599-614 - Erratum..... 69 849
KAGAN Y Y Stochastic model of earthquake fault geometry..... 71 659
KAILA K L, SARKAR DIPANKAR Earthquake intensity attenuation pattern in the United States..... 70 31
KAO D, ORR D Magnetotelluric studies in the Market Weighton area of eastern England..... 70 323
KAO D, ORR D Magnetotelluric response of a uniformly stratified earth containing a magnetized layer..... 70 339
KATSURA IKUO, OTOFUJI YO-ICHIRO, SASAJIMA SADAO Decay of a post-depositional remanent magnetization in wet sediments due to the effect of drying..... 70 191
KAWASAKI ICHIRO A method for the near-source anisotrophy by the pair-event inversion of Rayleigh-wave radiation patterns..... 71 395
KEEN CHARLOTTE E, BEAUMONT CHRISTOPHER, BOUTILIER ROSS On the evolution of rifted continental margins: comparison of models and observations for the Nova Scotian margin..... 70 667
KIKACHI NAOKICHI, OKAMOTO ISAO Statistical analysis of polar motion data - I. Theory for the Chandler wobble analysis..... 69 669
KING G C P, SOUFLERIS C, JACKSON J A, SPENCER C P, SCHOLZ C H The 1978 earthquake sequence near Thessaloniki (northern Greece)..... 68 429
KNOPOFF L, CHATTERJEE A K Unilateral extension of a two-dimensional shear crack under the influence of cohesive forces..... 68 7
KRISTJANSSON L, MCDOUGALL I Some aspects of the late Tertiary geomagnetic field in Iceland..... 68 272
KRUCZYK J, VINCENZ S A, COSSACK D, DUDA S J, BIRKENMAJER K, JELENSKA M KADZIALO-HOFMOKL M Palaeomagnetism of some late Mesozoic dolerite dykes of South Spitsbergen - GJRAS 67, 599-614 - Erratum..... 69 849
KURTZ R D Magnetotelluric interpretation of crustal and mantle structure in the Grenville Province..... 70 373
KUSZNIR N J, LOCKETT J M Ductile shear zones: some aspects of constant slip velocity and constant shear stress models..... 69 477
KUSZNIR N J Lithosphere response to externally and internally derived stress: a viscoelastic stress guide with amplification..... 70 399

LAGO BERNARD, CAZENAVE ANNY, DOMINH KIEN Geoid anomalies over the north-east Pacific fracture zones from satellite altimeter data..... 69 15
LAMBECK KURT, NAKIBOGLU S M A study of the Earth's response to surface loading with application to Lake Bonneville..... 70 577
LAMBECK KURT, HOPGOOD PETER The earths rotation and atmospheric circulation: 1958-1980..... 71 581
LANGEL L A, THORNING L A satellite magnetic anomaly map of Greenland.. 71 599
LANGSTON CHARLES A, BARKER JEFFREY S Moment tensor inversion of complex earthquakes..... 68 777
LE MOUEL J L, MENVIELLE M Geomagnetic variation anomalies and deflection of telluric currents..... 68 575
LEGROS HILAIRE, HINDERER JACQUES, AMALVICT MARTINE A search for Chandler and nearly diurnal free wobbles using Liouville equations... 71 303
LEHNER F K, LI V C Large-scale characteristics of place boundary deformations related to the post-seismic readjustment of a thin asthenosphere..... 71 775
LEWIS TOBY, FISHER NICHOLAS I Graphical methods for investigating the fit of a Fisher distribution to spherical data..... 69 1
LI V C, LEHNER F K Large-scale characteristics of place boundary deformations related to the post-seismic readjustment of a thin asthenosphere..... 71 775
LILLEY F E M, ARORA B R, SLOANE M N, SINGH B P, SRIVASTAVA B J, PRASAD S N Geomagnetic induction and conductive structures in north-west India..... 69 459
LINDE A T, MCGARR A, SACKS I S, SPOTTISWOODS S M, GREEN R W E Coseismic and other short-term strain changes recorded with Sacks-Evertson strainmeters in a deep mine, South Africa..... 70 717
LISTER C R B Geoid anomalies over cooling lithosphere: source for a third kernel of upper mantle thermal parameters and thus an inversion 68 219
LIU LIN-GUN, SHEN POUYAN, BASSETT WILLIAM A High-pressure polymorphism of FeO? An alternative interpretation and its implications for the Earth's core..... 70 57
LOCKETT J M, KUSZNIR N J Ductile shear zones: some aspects of constant slip velocity and constant shear stress models..... 69 477
LOUDEN KEITH E, FORSYTH DONALD W Crustal structure and isostatic compensation near the Kane fracture zone from topography and gravity measurements: 1. Spectral analysis approach..... 68 725
LOVLIE REIDAR Reply to Macintyre and Faerseth..... 70 543
MACINTYRE R M, FAERSETH R B Comments on 'palaeomagnetism of coast-parallel alkaline dykes from western Norway; ages of magmatism and evidence for crustal uplift and collapse', by R. Lovlie..... 70 539
MAINARDI F, STRICK E On a general class of constant-Q solids..... 69 415
MALIN S R C, SELLEK R Geomagnetic lunar analysis - the estimation of errors..... 70 793
MANOUSSIS STRATIS, ANGELIER JACQUES, TARANTOLA ALBERT, VALETTE BERNARD Inversion of field data in fault tectonics to obtain the regional stress - I. Single phase fault populations: a new method of computing the stress tensor..... 69 607
MARTIN A K, GOODLAD S W, HARTNADY C J H, DUPLESSIS A Cretaceous palaeopositions of the Falkland Plateau relative to southern Africa using Mesozoic seafloor spreading anomalies..... 71 567
MCDOUGALL I, KRISTJANSSON L Some aspects of the late Tertiary geomagnetic field in Iceland..... 68 272
MCELFRESH THOMAS W, DER ZOLTAN A, O'DONNELL ANNE An investigation of the regional variations and frequency dependence of anelastic attenuation in the mantle under the United States in the 0.5-4 Hz band..... 69 67
MCELHINNY M W, BARTON C E Time series analysis of the 10 000 yr geomagnetic secular variation record from SE Australia..... 68 709
MCFADDEN P L, REID A B Analysis of palaeomagnetic inclination data.... 69 307
MCFADDEN P L Two-tier analysis in palaeomagnetism..... 71 519
MCGARR A, SACKS I S, LINDE A T, SPOTTISWOODS S M, GREEN R W E Coseismic and other short-term strain changes recorded with Sacks-Evertson strainmeters in a deep mine, South Africa..... 70 717
MCGONIGLE ROBERT, CRAMPIN STUART, STEPHEN RALPH A The polarization of P-waves in anisotropic media..... 68 477
MCGONIGLE ROBERT, DOYLE MARK, CRAMPIN STUART The effects of crack anisotropy on the hypocentral locations of local earthquakes..... 69 137

MCKENZIE DAN, ENGLAND PHILIP A thin viscous sheet model for continental deformation..... 70 295
MCKENZIE DAN P, HOUSEMAN GREG Numerical experiments on the onset of convective instability in the Earth's mantle..... 68 133
MCMECHAN GEORGE A Low-velocity zone reflections observed in geometrical shadows of refractions profiles..... 71 261
MCMECHAN GEORGE A Determination of source parameters by wavefield extrapolation..... 71 613
MCNUTT MARCIA K, MENARD H W Constraints on yield strength in the oceanic lithosphere derived from observations of flexure..... 71 363
MENARD H W, MCNUTT MARCIA K Constraints on yield strength in the oceanic lithosphere derived from observations of flexure..... 71 363
MENKE WILLIAM On extending Biot's theory of multiple scattering at low frequencies from acoustic to elastic media..... 69 819
MENVIELLE M, LE MOUEL J L Geomagnetic variation anomalies and deflection of telluric currents..... 68 575
MEREU R F, BRIDEN J C, WHITCOMBE D N A teleseismic study of the West African craton margin in Senegal: P-wave slowness and asimuth anomalies..... 71 739
MERRIAM J B A comparison of recent theoretical results on the short-period terms in the length of day..... 69 837
MERRIAM J B Meteorological excitation of the annual polar motion..... 70 41
MICHAEL ANDREW J, TOKSOZ M NAFI Earthquake swarms as a long-range precursor to large earthquakes in Turkey..... 68 459
MIDDLETON M F Tectonic history from vitrinite reflectance..... 68 121
MOON WOOIL Variational solution of long-period oscillations of the Earth..... 69 431
MORRIS P The origins of the magnetic anomaly over the Lough Derg Complex, Co Donegal, Ireland..... 71 693
MUIRHEAD K J, DRUMMOND B J, HALES A L Evidence for a seismic discontinuity near 200 km depth under a continental margin..... 70 67
MUNK WALTER Why is the Earth a poor timekeeper? Comments on 'The Earth's Variable Rotation: geophysical causes and consequences' by Kurt Lambeck..... 69 831
MUSSETT ALAN, SHAW JOHN, DAGLEY PETER The magnitude of the palaeomagnetic field in Iceland between 2 and 6 Myr ago..... 68 211
NAKIBOGLU S M, LAMBECK KURT A study of the Earth's response to surface loading with application to Lake Bonneville..... 70 577
NEWTON ROGER G Note on inversion of reflection data for layered media. 69 571
O'DONNELL ANNE, DER ZOLTAN A, MCELFRESH THOMAS W An investigation of the regional variations and frequency dependence of anelastic attenuation in the mantle under the United States in the 0.5-4 Hz band..... 69 67
OKAMOTO ISAO, KIKACHI NAOKICHI Statistical analysis of polar motion data - I. Theory for the Chandler wobble analysis..... 69 669
OKUBO SHUHEI Is the Chandler period variable?..... 71 629
OKUBO SHUHEI Theoretical and observed Q of the Chandler wobble - Love number approach..... 71 647
OLDENBURG D W Multichannel appraisal deconvolution..... 69 405
O'REILLY W, OZDEMIR O An experimental study of the intensity and stability of thermoremanent magnetization acquired by synthetic monodomain titanomagnetite substituted by aluminium..... 70 141
ORR D, KAO D Magnetotelluric studies in the Market Weighton area of eastern England..... 70 323
ORR D, KAO D Magnetotelluric response of a uniformly stratified earth containing a magnetized layer..... 70 339
OSBORNE A D, WILLIS D M Quadrupole and octupole parameters of Jupiter's main magnetic field..... 68 765
OTOFUJI YO-ICHIRO, KATSURA IKUO, SASAJIMA SADAO Decay of a post-depositional remanent magnetization in wet sediments due to the effect of drying..... 70 191
OUCHI TORU A stochastic modelling of earthquake frequencies..... 70 173
OZDEMIR O, O'REILLY W An experimental study of the intensity and stability of thermoremanent magnetization acquired by synthetic monodomain titanomagnetite substituted by aluminium..... 70 141
PARASNIS D S Geothermal flow and phenomena in two Swedish localities north of the Arctic circle..... 71 545

PARKER ROBERT L The existence of a region inaccessible to magnetotelluric sounding..... 68 165
PARSONS BARRY, ROYDEN LEIGH A comparison of discrete and continuous intrusion models for the thermal structure of the plates..... 70 741
PATHAK P P, RAI J, VARSHNEYA N C VLF radiation from lightning..... 69 197
PAYNE MICHAEL A, VEROSUB KENNETH L The acquisition of post-depositional detrital remanent magnetization in a variety of natural sediments..... 68 625
PEDDIE NORMAN W International geomagnetic reference field 1980: a report by IAGA Division 1 Working Group 1..... 68 265
PELTIER W R, JARVIS GARY T Mantle convection as a boundary layer phenomenon..... 68 389
PELTIER W R, YUEN DAVID A Normal modes of the viscoelastic earth..... 69 495
PELTIER W R, WU PATRICK Viscous gravitational relaxation..... 70 435
PERROUD H, BONHOMMET N, ROBARDET M Comment on 'A palaeomagnetic study of Cambrian red beds from Carteret, Normandy, France' by W. A. Morris 69 573
PIPER J D A, SMITH R L Palaeomagnetism of the Southern zone of the Lewisian (Precambrian) Foreland, NW Scotland..... 68 325
POA YIH-HSING, ZIEGLER FRANZ Transient SH-waves in a wedge-shaped layer..... 71 57
POPOV M M, CERVENY V, PSENCIK I Computation of wave fields in inhomogeneous media - Gaussian beam approach..... 70 109
PRASAD S N, ARORA B R, LILLEY F E M, SLOANE M N, SINGH B P, SRIVASTAVA B J Geomagnetic induction and conductive structures in north-west India..... 69 459
PREVOT MICHEL, DUNLOP DAVID J Magnetic properties and opaque mineralogy of drilled submarine intrusive rocks..... 69 763
PSENCIK I, CERVENY V, POPOV M M Computation of wave fields in inhomogeneous media - Gaussian beam approach..... 70 109
PUGH D T A comparison of recent and historical tides and mean sea-levels off Ireland..... 71 809
RAE I C The field induced in a two-layer medium by an arbitrary source 69 49
RAI J, PATHAK P P, VARSHNEYA N C VLF radiation from lightning..... 69 197
RAM AVADH, YADAV LALAJI Seismotectonics and analysis of earthquakes from the Hindukush region..... 68 559
RAVAL U, DAWSON T W, WEAVER J T B-polarization induction in two generalized thin sheets at the surface of a conducting half-space.... 69 209
RAWLINGS DENNIS Extremal tides: rigorous computation for the many-body case..... 69 265
RAZAVY M, HOOSHYAR M A A continued fraction approach to the inverse problem of electrical conductivity..... 71 127
RAZAVY M, HOOSHYAR M A The inverse problem of geomagnetic induction at a fixed frequency..... 71 139
REID A B, MCFADDEN P L Analysis of palaeomagnetic inclination data.... 69 307
RIBE N M, WATTS A B The distribution of intraplate volcanism in the Pacific Ocean basin: a spectral approach..... 71 333
RIBE NEIL M On the interpretation of frequency response functions for oceanic gravity and bathymetry..... 70 273
ROBARDET M, PERROUD H, BONHOMMET N Comment on 'A palaeomagnetic study of Cambrian red beds from Carteret, Normandy, France' by W. A. Morris 69 573
ROY M, WAGNER J-J Palaeosecular variation and the current loop model of the geomagnetic field..... 71 269
ROYDEN LEIGH, PARSONS BARRY A comparison of discrete and continuous intrusion models for the thermal structure of the plates..... 70 741
RUFF LARRY J, HELMBERGER DON V The structure of the lowermost mantle determined by short-period P-wave amplitudes..... 68 95
SACKS I S, MCGARR A, LINDE A T, SPOTTISWOODS S M, GREEN R W E Coseismic and other short-term strain changes recorded with Sacks-Evertson strainmeters in a deep mine, South Africa..... 70 717
SAHA A K, SRIVASTAVA B J, VENKATACHARI R Low-latitude infrasonics associated with geomagnetic activity..... 71 241
SALISBURY MATTHEW H, CHRISTENSEN NIKOLAS I Lateral heterogeneity in the seismic structure of the oceanic crust inferred from velocity studies in the Bay of Islands ophiolite, Newfoundland..... 68 675
SANTOSA FADIL Numerical scheme for the inversion of acoustical impedance profile based on the Gel'fand-Levitan method..... 70 229
SAPIN MARTINE, HIRN ALFRED, SENOS LUISA, VICTOR LUIS MENDES High to low velocity succession in the upper crust related to tectonic emplacement: Tras os Montes-Galicia (Iberia), Brittany and Limousin (France)..... 70 1

SARKAR DIPANKAR, KAILA K L Earthquake intensity attenuation pattern in the United States..... 70 31
SASAJIMA SADAO, OTOFUJI YO-ICHIRO, KATSURA IKUO Decay of a post-depositional remanent magnetization in wet sediments due to the effect of drying..... 70 191
SASTRI J HANUMATH Phase variability of sq(h) on normal quiet days in the equatorial electrojet region..... 71 187
SCHMIDT P W Linearity spectrum analysis of multi-component magnetizations and its application to some igneous rocks from south-eastern Australia..... 70 647
SCHOLZ C H, SOUFLERIS C, JACKSON J A, KING G C P, SPENCER C P The 1978 earthquake sequence near Thessaloniki (northern Greece)..... 68 429
SCHOUTEN HANS, DENHAM CHUCK, SMITH WOOLLCOTT On the quality of marine magnetic anomaly sources and sea-floor topography..... 70 245
SEARLE R C, WHITMARSH R B, GINZBURG A The structure and origin of the Azores-Biscay Rise, North-east Atlantic Ocean..... 70 79
SELLEK R, MALIN S R C Geomagnetic lunar analysis - the estimation of errors..... 70 793
SENOS LUISA, HIRN ALFRED, SAPIN MARTINE, VICTOR LUIS MENDES High to low velocity succession in the upper crust related to tectonic emplacement: Tras os Montes-Galicia (Iberia), Brittany and Limousin (France)..... 70 1
SHAPIRO V A, ABDULLABEKOV K N Anomalous variation of the geomagnetic field in East Fergana - magnetic precursor of the Alay earthquake with M=7.0 (1978 November 2)..... 68 1
SHAW JOHN, DAGLEY PETER, MUSSETT ALAN The magnitude of the palaeomagnetic field in Iceland between 2 and 6 Myr ago..... 68 211
SHEN POUYAN, LIU LIN-GUN, BASSETT WILLIAM A High-pressure polymorphism of FeO? An alternative interpretation and its implications for the Earth's core..... 70 57
SILVER PAUL G, JORDAN THOMAS H Optimal estimation of scalar seismic moment..... 70 755
SINGH B P, ARORA B R, LILLEY F E M, SLOANE M N, SRIVASTAVA B J, PRASAD S N Geomagnetic induction and conductive structures in north-west India..... 69 459
SINGH D D Anelasticity of the crust and upper mantle beneath the Eurasian continent and the nearby regions from the inversions of Love and Rayleigh waves attenuation data..... 71 761
SINTON JOHN B, FRAZER L NEIL A method for the computation of finite frequency body wave synthetic seismograms in laterally varying media. 71 30
SLOANE M N, ARORA B R, LILLEY F E M, SINGH B P, SRIVASTAVA B J, PRASAD S N Geomagnetic induction and conductive structures in north-west India..... 69 459
SMITH R L, PIPER J D A Palaeomagnetism of the Southern zone of the Lewisian (Precambrian) Foreland, NW Scotland..... 68 325
SMITH WOOLLCOTT, SCHOUTEN HANS, DENHAM CHUCK On the quality of marine magnetic anomaly sources and sea-floor topography..... 70 245
SOUFLERIS C, JACKSON J A, KING G C P, SPENCER C P, SCHOLZ C H The 1978 earthquake sequence near Thessaloniki (northern Greece)..... 68 429
SPARKS R S J, WILSON L Explosive volcanic eruptions -V. Observations of plume dynamics during the 1979 Soufriere eruption, St Vincent..... 69 551
SPENCER C P, SOUFLERIS C, JACKSON J A, KING G C P, SCHOLZ C H The 1978 earthquake sequence near Thessaloniki (northern Greece)..... 68 429
SPICHAK V V, ZHDANOV M S, GOLUBEV N G, VARENTSOV IV M The construction of effective methods for electromagnetic modelling..... 68 589
SPOTTISWOODS S M, MCGARR A, SACKS I S, LINDE A T, GREEN R W E Coseismic and other short-term strain changes recorded with Sacks-Evertson strainmeters in a deep mine, South Africa..... 70 717
SPRATT R S Modelling the effect of atmospheric pressure variations on gravity..... 71 173
SRIVASTAVA B J, ARORA B R, LILLEY F E M, SLOANE M N, SINGH B P, PRASAD S N Geomagnetic induction and conductive structures in north-west India..... 69 459
SRIVASTAVA B J, VENKATACHARI R, SAHA A K Low-latitude infrasonics associated with geomagnetic activity..... 71 241
STEIM JOSEPH M, DZIEWONSKI ADAM M Dispersion and attenuation of mantle waves through waveform inversion..... 70 503

STEPHEN RALPH A, CRAMPIN STUART, MCGONIGLE ROBERT The polarization of P-waves in anisotropic media..... 68 477
STEVENS JEFFRY L The growing spherical seismic source..... 69 121
STREBECK JOHN W, DAVIES GEOFFREY F Old continental geotherms: constraints on heat production and thickness of continental plates... 69 623
STRENS M R, CANN J R A model of hydrothermal circulation in fault zones at mid-ocean ridge crests..... 71 225
STRICK E, MAINARDI F On a general class of constant-Q solids..... 69 415
STUMP BRIAN W, JOHNSON LANE R Higher-degree moment tensors - the importance of source finiteness and rupture propagation on seismograms..... 69 721
SUMMERS D M On the frequency response of induction anomalies..... 70 487
SUN WEI, WANG DING-YI, TSCHU KANG-KUN A note on MESA and spectral analysis of the hundred-year geomagnetic data at Zo-se..... 71 275
TALWANI MANIK, CHAPMAN MICHAEL E Geoid anomalies over deep sea trenches..... 68 349
TANIMOTO TOSHIRO Cagniard de-Hoop method for a Haskell type vertical fault..... 70 639
TARANTOLA ALBERT, ANGELIER JACQUES, VALETTE BERNARD, MANOUSSIS STRATIS Inversion of field data in fault tectonics to obtain the regional stress - I. Single phase fault populations: a new method of computing the stress tensor..... 69 607
THERA A L, DUPIS A Natural electromagnetism in the Rhine Graben..... 68 545
THOMPSON C J, GUBBINS D, WHALER K A Stable regions in the Earth's liquid core..... 68 241
THOMPSON C J, GUBBINS D Three-dimensional lithospheric modelling at NORSAR: linearity of the method and amplitude variations from the anomalies..... 71 1
THOMPSON R, TURNER GILLIAN M Detransformation of the British geomagnetic secular variation record for Holocene times..... 70 789
THORNING L, LANGEL L A A satellite magnetic anomaly map of Greenland.. 71 599
TOKSOZ M NAFI, MICHAEL ANDREW J Earthquake swarms as a long-range precursor to large earthquakes in Turkey..... 68 459
TOUSSAINT-JACKSON J E, EVANS C J, CHROSTON P N A comparison of laboratory measured electrical conductivity in rocks with theoretical conductivity based on derived pore aspect ratio spectra.. 71 247
TSCHU KANG-KUN, WANG DING-YI, SUN WEI A note on MESA and spectral analysis of the hundred-year geomagnetic data at Zo-se..... 71 275
TULLY M C, DONATO J A A proposed granite batholith along the western flank of the North Sea Viking Graben..... 69 187
TURNER G M, EVANS M E, HUSSIN I B A geomagnetic secular variation study (31 000-19 500 bp) in Western Canada..... 71 159
TURNER GILLIAN M, THOMPSON R Detransformation of the British geomagnetic secular variation record for Holocene times..... 70 789
URRUTIA-FUCUGAUCHI J The palaeomagnetic field as inferred from magnetic studies on magmatic arc zones..... 68 49
VALETTE BERNARD, ANGELIER JACQUES, TARANTOLA ALBERT, MANOUSSIS STRATIS Inversion of field data in fault tectonics to obtain the regional stress - I. Single phase fault populations: a new method of computing the stress tensor..... 69 607
VAN ARSDALE WILLIAM E Tidal deformation of a viscoelastic body..... 70 797
VAN DER VOO ROB A short note on early Cambrian palaeomagnetism from Normandy, France..... 68 269
VAN ZIJL J S V, DE BEER J H, HUYSSEN R M J, JOUBERT S J Magnetometer array studies and deep Schlumberger soundings in the Damara orogenic belt, South West Africa..... 70 11
VARENTSOV IV M, ZHDANOV M S, GOLUBEV N G, SPICHAK V V The construction of effective methods for electromagnetic modelling..... 68 589
VARSHNEYA N C, PATHAK P P, RAI J VLF radiation from lightning..... 69 197
VENKATACHARI R, SRIVASTAVA B J, SAHA A K Low-latitude infrasonics associated with geomagnetic activity..... 71 241
VERMA S K, DAS U C Electromagnetic response of an arbitrarily shaped three-dimensional conductor in a layered earth - numerical results... 69 55
VEROSUB KENNETH L, PAYNE MICHAEL A The acquisition of post-depositional detrital remanent magnetization in a variety of natural sediments..... 68 625
VICTOR LUIS MENDES, HIRN ALFRED, SENOS LUISA, SAPIN MARTINE High to low velocity succession in the upper crust related to tectonic emplacement: Tras os Montes-Galicia (Iberia), Brittany and Limousin (France)..... 70 1

VINCENZ S A, COSSACK D, DUDA S J, BIRKENMAJER K, JELENSKA M, KADZIALO-HOFMOKL M, KRUCZYK J Palaeomagnetism of some late Mesozoic dolerite dykes of South Spitsbergen - GJRAS 67, 599-614 - Erratum.... 69 849
VON FRESE R R B, HINZE W J, BRAILE L W Regional North American gravity and magnetic anomaly correlations..... 69 745
WAGNER J-J, ROY M Palaeosecular variation and the current loop model of the geomagnetic field..... 71 269
WAHR JOHN M The effects of the atmosphere and oceans on the Earth's wobble - 1. Theory..... 70 349
WANG CHENGSUNG Explicit SH transfer function of a layered crust by ray theory..... 71 589
WANG DING-YI, SUN WEI, TSCHU KANG-KUN A note on MESA and spectral analysis of the hundred-year geomagnetic data at Zo-se..... 71 275
WATTS A B, RIBE N M The distribution of intraplate volcanism in the Pacific Ocean basin: a spectral approach..... 71 333
WEAVER J T, DAWSON T W, RAVAL U B-polarization induction in two generalized thin sheets at the surface of a conducting half-space.... 69 209
WEBB D J The effect of polar wander on the tides of a hemispherical ocean..... 68 689
WEBB D J Tides and the evolution of the Earth-Moon system..... 70 261
WHALER K A, GUBBINS D, THOMPSON C J Stable regions in the Earth's liquid core..... 68 241
WHITCOMBE D N Three-dimensional seismic raytracing for the forward modelling and direct inversion of teleseismic delay times..... 69 635
WHITCOMBE D N, BRIDEN J C, MEREU R F A teleseismic study of the West African craton margin in Senegal: P-wave slowness and asimuth anomalies..... 71 739
WHITEHEAD JOHN A JR Instabilities of fluid conduits in a flowing earth - are plates lubricated by the asthenosphere?..... 70 415
WHITMARSH R B, GINZBURG A, SEARLE R C The structure and origin of the Azores-Biscay Rise, North-east Atlantic Ocean..... 70 79
WIER STUART Surface wave dispersion and Earth structure in south-eastern China..... 69 33
WIER STUART Inefficient propagation of Sn under south-eastern China... 71 151
WILLEMANN RAYMOND J, DAVIES GEOFFREY F Bending stresses in subducted lithosphere..... 71 215
WILLIS D M A direct analytic method of calculating the quadrupole parameters of a planetary magnetic field..... 68 751
WILLIS D M, OSBORNE A D Quadrupole and octupole parameters of Jupiter's main magnetic field..... 68 765
WILSON L, SPARKS R S J Explosive volcanic eruptions -V. Observations of plume dynamics during the 1979 Soufriere eruption, St Vincent..... 69 551
WILSON R L, HALL J M, DAGLEY P The British Tertiary igneous province: palaeomagnetism of the dyke swarm along the Sleat coast of Skye..... 68 317
WOODHOUSE J H, GIRNIUS T P Surface waves and free oscillations in a regionalized earth model..... 68 653
WU PATRICK, PELTIER W R Viscous gravitational relaxation..... 70 435
XIAO NAIYUAN, CAPITAINE NICOLE Some terms of nutation derived from the BIH data..... 68 805
YADAV LALAJI, RAM AVADH Seismotectonics and analysis of earthquakes from the Hindukush region..... 68 559
YUEN DAVID A, PELTIER W R Normal modes of the viscoelastic earth..... 69 495
ZHDANOV M S, GOLUBEV N G, SPICHAK V V, VARENTSOV IV M The construction of effective methods for electromagnetic modelling..... 68 589
ZIEGLER FRANZ, POA YIH-HSING Transient SH-waves in a wedge-shaped layer..... 71 57

GEOPHYSICAL JOURNAL SUBJECT INDEX FOR YEAR 1982

BOOK REVIEWS
Earthquake Mechanics..... 69 845
Developments in Geophysical Exploration Methods - 2..... 69 845
Identification of Seismic Sources - Earthquake or Underground Explosion..... 69 846
Oceanography from Space..... 70 807
Applied Geophysics for Geologists and Engineers (2nd edn)..... 70 808
Seismic Prospecting Instruments Volume 1: Signal Characteristics and Instrument Specifications (2nd edn)..... 70 809
The Oceanic Lithosphere (The Sea, Vol. 7)..... 70 810

COMPUTATIONAL METHODS
A method for calculating synthetic seismograms in laterally varying media, CASSELL B R..... 69 339
Ray-reflectivity method for SH-waves in stacks of thin and thick layers, DALEY P F, HRON F..... 69 527
Three-dimensional seismic raytracing for the forward modelling and direct inversion of teleseismic delay times, WHITCOMBE D N..... 69 635
Dynamic modelling of in-hole mounts for seismic detectors, BLAIR D P.. 69 803
A method for the computation of finite frequency body wave synthetic seismograms in laterally varying media, SINTON JOHN B, FRAZER L NEIL. 71 30

CONTINENTS
A thin viscous sheet model for continental deformation, ENGLAND PHILIP MCKENZIE DAN..... 70 295
On the evolution of rifted continental margins: comparison of models and observations for the Nova Scotian margin, BEAUMONT CHRISTOPHER, KEEN CHARLOTTE E, BOUTILIER ROSS..... 70 667

DATA ANALYSIS
Graphical methods for investigating the fit of a Fisher distribution to spherical data, LEWIS TOBY, FISHER NICHOLAS I..... 69 1
Multichannel appraisal deconvolution, OLDENBURG D W..... 69 405
The effect of data windows on the estimation of free oscillation parameters, DAHLEN F A..... 69 537
Broad-band deconvolution of GDSN data, HARVEY DANNY, CHOY GEORGE L.... 69 659
Simultaneous estimation of terrestrial eigenvibrations, HANSEN ROGER A 70 155
On the interpretation of frequency response functions for oceanic gravity and bathymetry, RIBE NEIL M..... 70 273
Linearity spectrum analysis of multi-component magnetizations and its application to some igneous rocks from south-eastern Australia, SCHMIDT P W..... 70 647
Detransformation of the British geomagnetic secular variation record for Holocene times, TURNER GILLIAN M, THOMPSON R..... 70 789
Geomagnetic lunar analysis - the estimation of errors, SELLEK R, MALIN S R C..... 70 793

DEFORMATION AND CREEP
On a general class of constant-Q solids, STRICK E, MAINARDI F..... 69 415
Ductile shear zones: some aspects of constant slip velocity and constant shear stress models, LOCKETT J M, KUSZNIR N J..... 69 477
A thin viscous sheet model for continental deformation, ENGLAND PHILIP MCKENZIE DAN..... 70 295
Lithosphere response to externally and internally derived stress: a viscoelastic stress guide with amplification, KUSZNIR N J..... 70 399
Viscous gravitational relaxation, WU PATRICK, PELTIER W R..... 70 435
A study of the Earth's response to surface loading with application to Lake Bonneville, NAKIBOGLU S M, LAMBECK KURT..... 70 577
Coseismic and other short-term strain changes recorded with Sacks-Evertson strainmeters in a deep mine, South Africa, MCGARR A, SACKS I S, LINDE A T, SPOTTISWOODS S M, GREEN R W E..... 70 717

Tidal deformation of a viscoelastic body, VAN ARSDALE WILLIAM E..... 70 797
Constraints on yield strength in the oceanic lithosphere derived from observations of flexure, MCNUTT MARCIA K, MENARD H W..... 71 363

EARTH TIDES
Extremal tides: rigorous computation for the many-body case, RAWLINGS DENNIS..... 69 265
Tidal deformation of a viscoelastic body, VAN ARSDALE WILLIAM E..... 70 797

EARTHQUAKES
Anomalous variation of the geomagnetic field in East Fergana - magnetic precursor of the Alay earthquake with M=7.0 (1978 November 2), SHAPIRO V A, ABDULLABEKOV K N..... 68 1
Unilateral extension of a two-dimensional shear crack under the influence of cohesive forces, KNOPOFF L, CHATTERJEE A K..... 68 7
Earthquake swarms as a long-range precursor to large earthquakes in Turkey, MICHAEL ANDREW J, TOKSOZ M NAFI..... 68 459
A geomagnetic precursor to the 1979 Carlisle earthquake, BEAMISH DAVID 68 531
Moment tensor inversion of complex earthquakes, BARKER JEFFREY S, LANGSTON CHARLES A..... 68 777
The growing spherical seismic source, STEVENS JEFFRY L..... 69 121
The effects of crack anisotropy on the hypocentral locations of local earthquakes, DOYLE MARK, MCGONIGLE ROBERT, CRAMPIN STUART..... 69 137
The 1973 Hawaii earthquake: a double earthquake beneath the volcano Mauna Kea, BUTLER RHETT..... 69 173
Seismic moment tensors and kinematic source parameters, DOORNBOS D J.. 69 235
Inversion of field data in fault tectonics to obtain the regional stress - I. Single phase fault populations: a new method of computing the stress tensor, ANGELIER JACQUES, TARANTOLA ALBERT, VALETTE BERNARD, MANOUSSIS STRATIS..... 69 607
Higher-degree moment tensors - the importance of source finiteness and rupture propagation on seismograms, STUMP BRIAN W, JOHNSON LANE R 69 721
Invariant expressions for elastic radiation from a fault with prescribed slip, FRAZER L NEIL..... 70 529
Determination of source parameters by wavefield extrapolation, MCMECHAN GEORGE A..... 71 613

EARTH'S CORE
Stable regions in the Earth's liquid core, GUBBINS D, THOMPSON C J, WHALER K A..... 68 241
High-pressure polymorphism of FeO? An alternative interpretation and its implications for the Earth's core, LIU LIN-GUN, SHEN POUYAN, BASSETT WILLIAM A..... 70 57
Tidal friction; and core; mountain and continent formation, JEFFREYS HAROLD..... 71 555

EARTH'S LITHOSPHERE
Crustal structure from an OBS survey of the Nootka fault zone off western Canada, AU D, CLOWES R M..... 68 27
The magnetic quiet zone in the eastern Gulf of Aden: implications for the early development of the continental margin, COCHRAN JAMES R..... 68 171
Geoid anomalies over cooling lithosphere: source for a third kernel of upper mantle thermal parameters and thus an inversion, LISTER C R B..... 68 219
On the electrical crust-mantle structure in Fennoscandia: no Moho, and the asthenosphere revealed?, JONES ALAN G..... 68 371
Natural electromagnetism in the Rhine Graben, DUPIS A, THERA A L..... 68 545
Lateral heterogeneity in the seismic structure of the oceanic crust inferred from velocity studies in the Bay of Islands ophiolite, Newfoundland, CHRISTENSEN NIKOLAS I, SALISBURY MATTHEW H..... 68 675
Crustal structure and isostatic compensation near the Kane fracture zone from topography and gravity measurements: 1. Spectral analysis approach, LOUDEN KEITH E, FORSYTH DONALD W..... 68 725
Surface wave dispersion and Earth structure in south-eastern China, WIER STUART..... 69 33
A proposed granite batholith along the western flank of the North Sea Viking Graben, DONATO J A, TULLY M C..... 69 187

Geomagnetic induction and conductive structures in north-west India, ARORA B R, LILLEY F E M, SLOANE M N, SINGH B P, SRIVASTAVA B J, PRASAD S N..... 69 459
Ductile shear zones: some aspects of constant slip velocity and constant shear stress models, LOCKETT J M, KUSZNIR N J..... 69 477
Crustal and upper mantle electrical conductivity structure in Southern Scotland, INGHAM M R, HUTTON V R S..... 69 579
The interpretation and tectonic implications of the geoelectric structure of Southern Scotland, INGHAM M R, HUTTON V R S..... 69 595
Inversion of field data in fault tectonics to obtain the regional stress - I. Single phase fault populations: a new method of computing the stress tensor, ANGELIER JACQUES, TARANTOLA ALBERT, VALETTE BERNARD, MANOUSSIS STRATIS..... 69 607
Old continental geotherms: constraints on heat production and thickness of continental plates, DAVIES GEOFFREY F, STREBECK JOHN W.. 69 623
High to low velocity succession in the upper crust related to tectonic emplacement: Tras os Montes-Galicia (Iberia), Brittany and Limousin (France), HIRN ALFRED, SENOS LUISA, SAPIN MARTINE, VICTOR LUIS MENDES..... 70 1
Evidence for a seismic discontinuity near 200 km depth under a continental margin, DRUMMOND B J, MUIRHEAD K J, HALES A L..... 70 67
The structure and origin of the Azores-Biscay Rise, North-east Atlantic Ocean, WHITMARSH R B, GINZBURG A, SEARLE R C..... 70 79
Magnetotelluric interpretation of crustal and mantle structure in the Grenville Province, KURTZ R D..... 70 373
Lithosphere response to externally and internally derived stress: a viscoelastic stress guide with amplification, KUSZNIR N J..... 70 399
A comparison of discrete and continuous intrusion models for the thermal structure of the plates, ROYDEN LEIGH, PARSONS BARRY..... 70 741
Bending stresses in subducted lithosphere, WILLEMANN RAYMOND J, DAVIES GEOFFREY F..... 71 215
A model of hydrothermal circulation in fault zones at mid-ocean ridge crests, STRENS M R, CANN J R..... 71 225
The distribution of intraplate volcanism in the Pacific Ocean basin: a spectral approach, RIBE N M, WATTS A B..... 71 333
Constraints on yield strength in the oceanic lithosphere derived from observations of flexure, MCNUTT MARCIA K, MENARD H W..... 71 363
Seismic structure of Iran from surface and body wave data, ASUDEH ISA. 71 715
A teleseismic study of the West African craton margin in Senegal: P-wave slowness and asimuth anomalies, BRIDEN J C, MEREU R F, WHITCOMBE D N..... 71 739
Anelasticity of the crust and upper mantle beneath the Eurasian continent and the nearby regions from the inversions of Love and Rayleigh waves attenuation data, SINGH D D..... 71 761

EARTH'S MANTLE
The structure of the lowermost mantle determined by short-period P-wave amplitudes, RUFF LARRY J, HELMBERGER DON V..... 68 95
An investigation of the regional variations and frequency dependence of anelastic attenuation in the mantle under the United States in the 0.5-4 Hz band, DER ZOLTAN A, MCELFRESH THOMAS W, O'DONNELL ANNE.. 69 67
S to P scattering at the 650 km discontinuity, BARLEY B J, HUDSON J A, DOUGLAS A..... 69 159
Upper mantle anisotropy: evidence from free oscillations, ANDERSON DON L, DZIEWONSKI ADAM M..... 69 383
A new derivation for the ratio Q(wobble)/Q(mantle), BEN-MENAHEM ARI... 70 535

ELASTIC WAVE THEORY
The polarization of P-waves in anisotropic media, CRAMPIN STUART, STEPHEN RALPH A, MCGONIGLE ROBERT..... 68 477
Surface waves and free oscillations in a regionalized earth model, WOODHOUSE J H, GIRNIUS T P..... 68 653
A note on H-waves, HAYES M..... 68 815
The growing spherical seismic source, STEVENS JEFFRY L..... 69 121
Seismic moment tensors and kinematic source parameters, DOORNBOS D J.. 69 235
Implications of stress concentration on a strike-slip fault in an elastic plate subject to basal shear stress, BONAFEDE M, DRAGONI M... 69 369

Use of stochastic models in seismology, HUDSON J A..... 69 649
On extending Biot's theory of multiple scattering at low frequencies from acoustic to elastic media, MENKE WILLIAM..... 69 819
Computation of wave fields in inhomogeneous media - Gaussian beam approach, CERVENY V, POPOV M M, PSENCIK I..... 70 109
Invariant expressions for elastic radiation from a fault with prescribed slip, FRAZER L NEIL..... 70 529
Reflection-refraction of general P- and type-I S-waves in elastic and anelastic solids, BORCHERDT ROGER D..... 70 621
Cagniard de-Hoop method for a Haskell type vertical fault, TANIMOTO TOSHIRO..... 70 639
Transient SH-waves in a wedge-shaped layer, POA YIH-HSING, ZIEGLER FRANZ..... 71 57
Scattering of waves by a quasi-thin body of arbitrary shape, GELCHINSKY B JA..... 71 425
Explicit SH transfer function of a layered crust by ray theory, WANG CHENGSUNG..... 71 589
Diffracted waves and displacement field over two- dimensional elevated topographies, BARD PIERRE-YVES..... 71 731

ELECTRICAL METHODS AND SURVEYS
On the electrical crust-mantle structure in Fennoscandia: no Moho, and the asthenosphere revealed?, JONES ALAN G..... 68 371
A continued fraction approach to the inverse problem of electrical conductivity, HOOSHYAR M A, RAZAVY M..... 71 127

ELECTRICAL PROPERTIES
A comparison of laboratory measured electrical conductivity in rocks with theoretical conductivity based on derived pore aspect ratio spectra, EVANS C J, CHROSTON P N, TOUSSAINT-JACKSON J E..... 71 247

ELECTROMAGNETIC INDUCTION
The construction of effective methods for electromagnetic modelling, ZHDANOV M S, GOLUBEV N G, SPICHAK V V, VARENTSOV IV M..... 68 589
The field induced in a two-layer medium by an arbitrary source, RAE I C..... 69 49
Electromagnetic response of an arbitrarily shaped three-dimensional conductor in a layered earth - numerical results, DAS U C, VERMA S K. 69 55
B-polarization induction in two generalized thin sheets at the surface of a conducting half-space, DAWSON T W, WEAVER J T, RAVAL U.. 69 209
An explicit method for solving the geomagnetic induction problem, BARCILON VICTOR..... 70 205
Magnetotelluric response of a uniformly stratified earth containing a magnetized layer, KAO D, ORR D..... 70 339
On the frequency response of induction anomalies, SUMMERS D M..... 70 487

FRACTURE AND FAILURE
Unilateral extension of a two-dimensional shear crack under the influence of cohesive forces, KNOPOFF L, CHATTERJEE A K..... 68 7

GEODESY
Geodetic singularities in the gravity field of a non-homogeneous planet, BOCCHIO F..... 68 643
Crustal structure and isostatic compensation near the Kane fracture zone from topography and gravity measurements: 1. Spectral analysis approach, LOUDEN KEITH E, FORSYTH DONALD W..... 68 725
Geoid anomalies over the north-east Pacific fracture zones from satellite altimeter data, CAZENAVE ANNY, LAGO BERNARD, DOMINH KIEN... 69 15
A technique for computing geoid height anomalies over two-dimensional earth models, JONES GLYN M..... 69 329
Topological approach to remote sensing, DANGELMAYR G, GUTTINGER W..... 71 79

GRAVITY FIELD, EARTH
Geoid anomalies over cooling lithosphere: source for a third kernel of upper mantle thermal parameters and thus an inversion, LISTER C R B..... 68 219
Geoid anomalies over deep sea trenches, CHAPMAN MICHAEL E, TALWANI MANIK..... 68 349

Geodetic singularities in the gravity field of a non-homogeneous planet, BOCCHIO F..... 68 643
Viscous gravitational relaxation, WU PATRICK, PELTIER W R..... 70 435
Modelling the effect of atmospheric pressure variations on gravity, SPRATT R S..... 71 173

GRAVITY METHODS AND SURVEYS
Crustal structure and isostatic compensation near the Kane fracture zone from topography and gravity measurements: 1. Spectral analysis approach, LOUDEN KEITH E, FORSYTH DONALD W..... 68 725
Regional North American gravity and magnetic anomaly correlations, VON FRESE R R B, HINZE W J, BRAILE L W..... 69 745

HEAT FLOW
Tectonic history from vitrinite reflectance, MIDDLETON M F..... 68 121
Old continental geotherms: constraints on heat production and thickness of continental plates, DAVIES GEOFFREY F, STREBECK JOHN W.. 69 623
Ar40-Ar39 incremental heating studies on the Tudor Gabbro, Grenville Province, Ontario; its bearing on the North American apparent polar wander path in late Proterozoic times, BAKSI AJOY K..... 70 545
A comparison of discrete and continuous intrusion models for the thermal structure of the plates, ROYDEN LEIGH, PARSONS BARRY..... 70 741
Geothermal flow and phenomena in two Swedish localities north of the Arctic circle, PARASNIS D S..... 71 545

INTERNAL DYNAMICS OF THE EARTH
Numerical experiments on the onset of convective instability in the Earth's mantle, HOUSEMAN GREG, MCKENZIE DAN P..... 68 133
Mantle convection as a boundary layer phenomenon, JARVIS GARY T, PELTIER W R..... 68 389
Phase boundaries in finite amplitude mantle convection, CHRISTENSEN ULRICH..... 68 487
Instabilities of fluid conduits in a flowing earth - are plates lubricated by the asthenosphere?, WHITEHEAD JOHN A JR..... 70 415

INVERSE PROBLEM
Moment tensor inversion of complex earthquakes, BARKER JEFFREY S, LANGSTON CHARLES A..... 68 777
Numerical scheme for the inversion of acoustical impedance profile based on the Gel'fand-Levitan method, SANTOSA FADIL..... 70 229
Optimal estimation of scalar seismic moment, SILVER PAUL G, JORDAN THOMAS H..... 70 755
A continued fraction approach to the inverse problem of electrical conductivity, HOOSHYAR M A, RAZAVY M..... 71 127
The inverse problem of geomagnetic induction at a fixed frequency, HOOSHYAR M A, RAZAVY M..... 71 139

INVERSE PROBLEMS
A geometrical interpretation of ideal body problems, HUESTIS STEPHEN P 69 253
Linear formulation of the inverse problem for the amplitude of seismic waves, JOBERT GEORGES..... 69 841

IONOSPHERE
Phase variability of sq(h) on normal quiet days in the equatorial electrojet region, SASTRI J HANUMATH..... 71 187

MAGNETIC FIELD, EARTH
Anomalous variation of the geomagnetic field in East Fergana - magnetic precursor of the Alay earthquake with M=7.0 (1978 November 2), SHAPIRO V A, ABDULLABEKOV K N..... 68 1
The magnetic quiet zone in the eastern Gulf of Aden: implications for the early development of the continental margin, COCHRAN JAMES R..... 68 171
International geomagnetic reference field 1980: a report by IAGA Division 1 Working Group 1, PEDDIE NORMAN W..... 68 265
Some aspects of the late Tertiary geomagnetic field in Iceland, KRISTJANSSON L, MCDOUGALL I..... 68 272
A geomagnetic precursor to the 1979 Carlisle earthquake, BEAMISH DAVID 68 531

Geomagnetic variation anomalies and deflection of telluric currents, LE MOUEL J L, MENVIELLE M..... 68 575
Time series analysis of the 10 000 yr geomagnetic secular variation record from SE Australia, BARTON C E, MCELHINNY M W..... 68 709
An investigation of the causes of abnormal quiet days in Sq(H), BUTCHER E C..... 69 101
On the latitude of the Sq(H) focus at sunspot minimum, BUTCHER E C.... 69 113
Monopoly, HODDER BARBARA M..... 70 217
Detransformation of the British geomagnetic secular variation record for Holocene times, TURNER GILLIAN M, THOMPSON R..... 70 789
Geomagnetic lunar analysis - the estimation of errors, SELLEK R, MALIN S R C..... 70 793
Low-latitude infrasonics associated with geomagnetic activity, SRIVASTAVA B J, VENKATACHARI R, SAHA A K..... 71 241
Palaeosecular variation and the current loop model of the geomagnetic field, ROY M, WAGNER J-J..... 71 269
An investigation of the causes of abnormally quiet days in Sq(H) - GJRAS 67, 101-111 - Erratum, BUTCHER E C..... 70 815

MAGNETIC METHODS AND SURVEYS

Regional North American gravity and magnetic anomaly correlations, VON FRESE R R B, HINZE W J, BRAILE L W..... 69 745
Magnetometer array studies and deep Schlumberger soundings in the Damara orogenic belt, South West Africa, DE BEER J H, HUYSSEN R M J, JOUBERT S J, VAN ZIJL J S V..... 70 11
The inverse problem of geomagnetic induction at a fixed frequency, HOOSHYAR M A, RAZAVY M..... 71 139
A geomagnetic secular variation study (31 000-19 500 bp) in Western Canada, TURNER G M, EVANS M E, HUSSIN I B..... 71 159
A note on MESA and spectral analysis of the hundred-year geomagnetic data at Zo-se, WANG DING-YI, SUN WEI, TSCHU KANG-KUN..... 71 275
A satellite magnetic anomaly map of Greenland, LANGEL L A, THORNING L. 71 599
The origins of the magnetic anomaly over the Lough Derg Complex, Co Donegal, Ireland, MORRIS P..... 71 693

MAGNETIC PROPERTIES

Studies of partial rotational remanent magnetization and rotational remanent magnetization at slow speeds of rotation, EDWARDS J..... 68 609
The acquisition of post-depositional detrital remanent magnetization in a variety of natural sediments, PAYNE MICHAEL A, VEROSUB KENNETH L 68 625
An experimental study of the intensity and stability of thermoremanent magnetization acquired by synthetic monodomain titanomagnetite substituted by aluminium, OZDEMIR O, O'REILLY W..... 70 141
Decay of a post-depositional remanent magnetization in wet sediments due to the effect of drying, OTOFUJI YO-ICHIRO, KATSURA IKUO, SASAJIMA SADAO..... 70 191
Linearity spectrum analysis of multi-component magnetizations and its application to some igneous rocks from south-eastern Australia, SCHMIDT P W..... 70 647
Gyroremanent magnetization produced by specimen rotation between successive alternating field treatments, EDWARDS J..... 71 199
High-temperature characteristics of a natural titanomagnetite, HARTSTRA R L..... 71 455
Grain-size dependence of initial susceptibility and saturation magnetization-related parameters of four natural magnetites in the PSD-MD range, HARTSTRA R L..... 71 477
A comparative study of the ARM and Isr of some natural magnetics of MD and PSD grain size, HARTSTRA R L..... 71 497

MAGNETOTELLURIC METHODS AND SURVEYS

Magnetotelluric studies in the Market Weighton area of eastern England KAO D, ORR D..... 70 323
Magnetotelluric response of a uniformly stratified earth containing a magnetized layer, KAO D, ORR D..... 70 339
Magnetotelluric interpretation of crustal and mantle structure in the Grenville Province, KURTZ R D..... 70 373

MAGNETO-TELLURIC METHODS AND SURVEYS
The existence of a region inaccessible to magnetotelluric sounding, PARKER ROBERT L..... 68 165
Automatic model for finding the one-dimensional magnetotelluric problem, HOBBS B A..... 68 253
Natural electromagnetism in the Rhine Graben, DUPIS A, THERA A L..... 68 545
Geomagnetic induction and conductive structures in north-west India, ARORA B R, LILLEY F E M, SLOANE M N, SINGH B P, SRIVASTAVA B J, PRASAD S N..... 69 459
Crustal and upper mantle electrical conductivity structure in Southern Scotland, INGHAM M R, HUTTON V R S..... 69 579
The interpretation and tectonic implications of the geoelectric structure of Southern Scotland, INGHAM M R, HUTTON V R S..... 69 595

MARINE GEOPHYSICS
Magnetic properties and opaque mineralogy of drilled submarine intrusive rocks, DUNLOP DAVID J, PREVOT MICHEL..... 69 763
The structure and origin of the Azores-Biscay Rise, North-east Atlantic Ocean, WHITMARSH R B, GINZBURG A, SEARLE R C..... 70 79
On the quality of marine magnetic anomaly sources and sea-floor topography, SCHOUTEN HANS, DENHAM CHUCK, SMITH WOOLLCOTT..... 70 245
On the interpretation of frequency response functions for oceanic gravity and bathymetry, RIBE NEIL M..... 70 273

METEOROLOGY
VLF radiation from lightning, PATHAK P P, RAI J, VARSHNEYA N C..... 69 197
Evidence for 18.6-yr M(N) term in Japanese air pressure and geophysical implications, CURRIE ROBERT G..... 69 321
The earths rotation and atmospheric circulation: 1958-1980, LAMBECK KURT, HOPGOOD PETER..... 71 581

NORMAL MODES OF THE EARTH
Excitation of normal modes on non-rotating earth models, CHAO B FENG.. 68 295
Surface waves and free oscillations in a regionalized earth model, WOODHOUSE J H, GIRNIUS T P..... 68 653
Upper mantle anisotropy: evidence from free oscillations, ANDERSON DON L, DZIEWONSKI ADAM M..... 69 383
Variational solution of long-period oscillations of the Earth, MOON WOOIL..... 69 431
Normal modes of the viscoelastic earth, YUEN DAVID A, PELTIER W R..... 69 495
The effect of data windows on the estimation of free oscillation parameters, DAHLEN F A..... 69 537
Simultaneous estimation of terrestrial eigenvibrations, HANSEN ROGER A 70 155

OCEANOGRAPHY
On analysis and prediction of tides on the west coast of Great Britain AMIN M..... 68 57
On analysis and forecasting of surges on the west coast of Great Britain, AMIN M..... 68 79
The effect of polar wander on the tides of a hemispherical ocean, WEBB D J..... 68 689
Tides and the evolution of the Earth-Moon system, WEBB D J..... 70 261
A comparison of recent and historical tides and mean sea-levels off Ireland, PUGH D T..... 71 809

PALAEOMAGNETISM
The palaeomagnetic field as inferred from magnetic studies on magmatic arc zones, URRUTIA-FUCUGAUCHI J..... 68 49
The magnitude of the palaeomagnetic field in Iceland between 2 and 6 Myr ago, SHAW JOHN, DAGLEY PETER, MUSSETT ALAN..... 68 211
A short note on early Cambrian palaeomagnetism from Normandy, France, VAN DER VOO ROB..... 68 269
Some aspects of the late Tertiary geomagnetic field in Iceland, KRISTJANSSON L, MCDOUGALL I..... 68 272
The British Tertiary igneous province: palaeomagnetism of the dyke swarm along the Sleat coast of Skye, WILSON R L, HALL J M, DAGLEY P.. 68 317
Palaeomagnetism of the Southern zone of the Lewisian (Precambrian) Foreland, NW Scotland, SMITH R L, PIPER J D A..... 68 325

Studies of partial rotational remanent magnetization and rotational remanent magnetization at slow speeds of rotation, EDWARDS J..... 68 609
The acquisition of post-depositional detrital remanent magnetization in a variety of natural sediments, PAYNE MICHAEL A, VEROSUB KENNETH L 68 625
Analysis of palaeomagnetic inclination data, MCFADDEN P L, REID A B... 69 307
Palaeomagnetism of nine dated Phanerozoic dykes in south-east Greenland, BECKMANN GEORGE E J..... 69 355
Comment on 'A palaeomagnetic study of Cambrian red beds from Carteret, Normandy, France' by W. A. Morris, PERROUD H, BONHOMMET N, ROBARDET M..... 69 573
Palaeomagnetism of some late Mesozoic dolerite dykes of South Spitsbergen - GJRAS 67, 599-614 - Erratum, VINCENZ S A, COSSACK D, DUDA S J, BIRKENMAJER K, JELENSKA M, KADZIALO-HOFMOKL M, KRUCZYK J... 69 849
The late Maastrichtian palaeomagnetic pole of the Pacific Plate, GORDON RICHARD G..... 70 129
An experimental study of the intensity and stability of thermoremanent magnetization acquired by synthetic monodomain titanomagnetite substituted by aluminium, OZDEMIR O, O'REILLY W..... 70 141
Decay of a post-depositional remanent magnetization in wet sediments due to the effect of drying, OTOFUJI YO-ICHIRO, KATSURA IKUO, SASAJIMA SADAO..... 70 191
Comments on 'palaeomagnetism of coast-parallel alkaline dykes from western Norway; ages of magmatism and evidence for crustal uplift and collapse', by R. Lovlie, MACINTYRE R M, FAERSETH R B..... 70 539
Reply to Macintyre and Faerseth, LOVLIE REIDAR..... 70 543
Ar40-Ar39 incremental heating studies on the Tudor Gabbro, Grenville Province, Ontario; its bearing on the North American apparent polar wander path in late Proterozoic times, BAKSI AJOY K..... 70 545
Gyroremanent magnetization produced by specimen rotation between successive alternating field treatments, EDWARDS J..... 71 199
Palaeosecular variation and the current loop model of the geomagnetic field, ROY M, WAGNER J-J..... 71 269
High-temperature characteristics of a natural titanomagnetite, HARTSTRA R L..... 71 455
Grain-size dependence of initial susceptibility and saturation magnetization-related parameters of four natural magnetites in the PSD-MD range, HARTSTRA R L..... 71 477
A comparative study of the ARM and Isr of some natural magnetics of MD and PSD grain size, HARTSTRA R L..... 71 497
Two-tier analysis in palaeomagnetism, MCFADDEN P L..... 71 519
Cretaceous palaeopositions of the Falkland Plateau relative to southern Africa using Mesozoic seafloor spreading anomalies, MARTIN A K, GOODLAD S W, HARTNADY C J H, DUPLESSIS A..... 71 567

PHYSICS OF ROCKS
Magnetic properties and opaque mineralogy of drilled submarine intrusive rocks, DUNLOP DAVID J, PREVOT MICHEL..... 69 763
High-pressure polymorphism of FeO? An alternative interpretation and its implications for the Earth's core, LIU LIN-GUN, SHEN POUYAN, BASSETT WILLIAM A..... 70 57
The influence of water on the stress supported by experimentally faulted Westerly granite, DENNIS S M, ATKINSON B K..... 71 285

PLANETARY MAGNETIC FIELDS
A direct analytic method of calculating the quadrupole parameters of a planetary magnetic field, WILLIS D M..... 68 751
Quadrupole and octupole parameters of Jupiter's main magnetic field, WILLIS D M, OSBORNE A D..... 68 765

PLANETS AND SOLAR SYSTEM
Tides and the evolution of the Earth-Moon system, WEBB D J..... 70 261

ROTATIONAL DYNAMICS OF THE EARTH
Some terms of nutation derived from the BIH data, CAPITAINE NICOLE, XIAO NAIYUAN..... 68 805
Statistical analysis of polar motion data - I. Theory for the Chandler wobble analysis, OKAMOTO ISAO, KIKACHI NAOKICHI..... 69 669

Why is the Earth a poor timekeeper? Comments on 'The Earth's Variable Rotation: geophysical causes and consequences' by Kurt Lambeck, MUNK WALTER..... 69 831
A comparison of recent theoretical results on the short-period terms in the length of day, MERRIAM J B..... 69 837
Meteorological excitation of the annual polar motion, MERRIAM J B..... 70 41
The effects of the atmosphere and oceans on the Earth's wobble - 1. Theory, WAHR JOHN M..... 70 349
A new derivation for the ratio Q(wobble)/Q(mantle), BEN-MENAHEM ARI... 70 535
The Chandlerian nutation from 1900 to 1980, GUINOT B..... 71 295
A search for Chandler and nearly diurnal free wobbles using Liouville equations, HINDERER JACQUES, LEGROS HILAIRE, AMALVICT MARTINE..... 71 303
Tidal friction; and core; mountain and continent formation, JEFFREYS HAROLD..... 71 555
The earths rotation and atmospheric circulation: 1958-1980, LAMBECK KURT, HOPGOOD PETER..... 71 581
Is the Chandler period variable?, OKUBO SHUHEI..... 71 629
Theoretical and observed Q of the Chandler wobble - Love number approach, OKUBO SHUHEI..... 71 647

SEISMICITY
The 1978 earthquake sequence near Thessaloniki (northern Greece), SOUFLERIS C, JACKSON J A, KING G C P, SPENCER C P, SCHOLZ C H..... 68 429
Earthquake swarms as a long-range precursor to large earthquakes in Turkey, MICHAEL ANDREW J, TOKSOZ M NAFI..... 68 459
Aftershock tectonics of the 1978 Tabas-e-Golshan (Iran) earthquake sequence: a documented active 'thin- and thick- skinned tectonic' case, BERBERIAN MANUEL..... 68 499
Seismotectonics and analysis of earthquakes from the Hindukush region, RAM AVADH, YADAV LALAJI..... 68 559
Earthquake intensity attenuation pattern in the United States, KAILA K L, SARKAR DIPANKAR..... 70 31
A stochastic modelling of earthquake frequencies, OUCHI TORU..... 70 173
Stochastic model of earthquake fault geometry, KAGAN Y Y..... 71 659

SEISMOLOGY
Crustal structure from an OBS survey of the Nootka fault zone off western Canada, AU D, CLOWES R M..... 68 27
The structure of the lowermost mantle determined by short-period P-wave amplitudes, RUFF LARRY J, HELMBERGER DON V..... 68 95
The polarization of P-waves in anisotropic media, CRAMPIN STUART, STEPHEN RALPH A, MCGONIGLE ROBERT..... 68 477
Lateral heterogeneity in the seismic structure of the oceanic crust inferred from velocity studies in the Bay of Islands ophiolite, Newfoundland, CHRISTENSEN NIKOLAS I, SALISBURY MATTHEW H..... 68 675
Surface wave dispersion and Earth structure in south-eastern China, WIER STUART..... 69 33
An investigation of the regional variations and frequency dependence of anelastic attenuation in the mantle under the United States in the 0.5-4 Hz band, DER ZOLTAN A, MCELFRESH THOMAS W, O'DONNELL ANNE.. 69 67
The effects of crack anisotropy on the hypocentral locations of local earthquakes, DOYLE MARK, MCGONIGLE ROBERT, CRAMPIN STUART..... 69 137
S to P scattering at the 650 km discontinuity, BARLEY B J, HUDSON J A, DOUGLAS A..... 69 159
A method for calculating synthetic seismograms in laterally varying media, CASSELL B R..... 69 339
Ray-reflectivity method for SH-waves in stacks of thin and thick layers, DALEY P F, HRON F..... 69 527
Note on inversion of reflection data for layered media, NEWTON ROGER G 69 571
Three-dimensional seismic raytracing for the forward modelling and direct inversion of teleseismic delay times, WHITCOMBE D N..... 69 635
Use of stochastic models in seismology, HUDSON J A..... 69 649
Broad-band deconvolution of GDSN data, HARVEY DANNY, CHOY GEORGE L.... 69 659
Higher-degree moment tensors - the importance of source finiteness and rupture propagation on seismograms, STUMP BRIAN W, JOHNSON LANE R 69 721
Dynamic modelling of in-hole mounts for seismic detectors, BLAIR D P.. 69 803
Linear formulation of the inverse problem for the amplitude of seismic waves, JOBERT GEORGES..... 69 841

Evidence for a seismic discontinuity near 200 km depth under a continental margin, DRUMMOND B J, MUIRHEAD K J, HALES A L..... 70 67
Computation of wave fields in inhomogeneous media - Gaussian beam approach, CERVENY V, POPOV M M, PSENCIK I..... 70 109
Dispersion and attenuation of mantle waves through waveform inversion, DZIEWONSKI ADAM M, STEIM JOSEPH M..... 70 503
The effect of underground structure on seismic motions of the ground surface, CRICHLOW JOEL M..... 70 563
Reflection-refraction of general P- and type-I S-waves in elastic and anelastic solids, BORCHERDT ROGER D..... 70 621
Coseismic and other short-term strain changes recorded with Sacks-Evertson strainmeters in a deep mine, South Africa, MCGARR A, SACKS I S, LINDE A T, SPOTTISWOODS S M, GREEN R W E..... 70 717
Optimal estimation of scalar seismic moment, SILVER PAUL G, JORDAN THOMAS H..... 70 755
Three-dimensional lithospheric modelling at NORSAR: linearity of the method and amplitude variations from the anomalies, THOMPSON C J, GUBBINS D..... 71 1
A method for the computation of finite frequency body wave synthetic seismograms in laterally varying media, SINTON JOHN B, FRAZER L NEIL. 71 30
Transient SH-waves in a wedge-shaped layer, POA YIH-HSING, ZIEGLER FRANZ..... 71 57
Inefficient propagation of Sn under south-eastern China, WIER STUART.. 71 151
Low-velocity zone reflections observed in geometrical shadows of refractions profiles, MCMECHAN GEORGE A..... 71 261
A method for the near-source anisotrophy by the pair-event inversion of Rayleigh-wave radiation patterns, KAWASAKI ICHIRO..... 71 395
Scattering of waves by a quasi-thin body of arbitrary shape, GELCHINSKY B JA..... 71 425
Explicit SH transfer function of a layered crust by ray theory, WANG CHENGSUNG..... 71 589
Determination of source parameters by wavefield extrapolation, MCMECHAN GEORGE A..... 71 613
Rayleigh wave anelastic attenuation across the Bermuda Rise and the volcanic Caribbean Arch, CANAS JOSE A..... 71 703
Seismic structure of Iran from surface and body wave data, ASUDEH ISA. 71 715
Diffracted waves and displacement field over two- dimensional elevated topographies, BARD PIERRE-YVES..... 71 731
A teleseismic study of the West African craton margin in Senegal: P-wave slowness and asimuth anomalies, BRIDEN J C, MEREU R F, WHITCOMBE D N..... 71 739
Anelasticity of the crust and upper mantle beneath the Eurasian continent and the nearby regions from the inversions of Love and Rayleigh waves attenuation data, SINGH D D..... 71 761

SURFACE DYNAMICS OF THE EARTH
Instabilities of fluid conduits in a flowing earth - are plates lubricated by the asthenosphere?, WHITEHEAD JOHN A JR..... 70 415
Bending stresses in subducted lithosphere, WILLEMANN RAYMOND J, DAVIES GEOFFREY F..... 71 215
A model of hydrothermal circulation in fault zones at mid-ocean ridge crests, STRENS M R, CANN J R..... 71 225
Tidal friction; and core; mountain and continent formation, JEFFREYS HAROLD..... 71 555
Large-scale characteristics of place boundary deformations related to the post-seismic readjustment of a thin asthenosphere, LEHNER F K, LI V C..... 71 775

TECTONICS
Tectonic history from vitrinite reflectance, MIDDLETON M F..... 68 121
Calculating velocity fields across plate boundaries from observed shear rates, HAINES A J..... 68 203
Aftershock tectonics of the 1978 Tabas-e-Golshan (Iran) earthquake sequence: a documented active 'thin- and thick- skinned tectonic' case, BERBERIAN MANUEL..... 68 499
Seismotectonics and analysis of earthquakes from the Hindukush region, RAM AVADH, YADAV LALAJI..... 68 559

High to low velocity succession in the upper crust related to tectonic emplacement: Tras os Montes-Galicia (Iberia), Brittany and Limousin (France), HIRN ALFRED, SENOS LUISA, SAPIN MARTINE, VICTOR LUIS MENDES..... 70 1
Comments on 'palaeomagnetism of coast-parallel alkaline dykes from western Norway; ages of magmatism and evidence for crustal uplift and collapse', by R. Lovlie, MACINTYRE R M, FAERSETH R B..... 70 539
Reply to Macintyre and Faerseth, LOVLIE REIDAR..... 70 543
On the evolution of rifted continental margins: comparison of models and observations for the Nova Scotian margin, BEAUMONT CHRISTOPHER, KEEN CHARLOTTE E, BOUTILIER ROSS..... 70 667

UKGA ABSTRACTS
UK Geophysical Assembly Supplement - VI..... 69 273

VOLCANISM
The 1973 Hawaii earthquake: a double earthquake beneath the volcano Mauna Kea, BUTLER RHETT..... 69 173
Explosive volcanic eruptions -V. Observations of plume dynamics during the 1979 Soufriere eruption, St Vincent, SPARKS R S J, WILSON L..... 69 551
The distribution of intraplate volcanism in the Pacific Ocean basin: a spectral approach, RIBE N M, WATTS A B..... 71 333
